The idea is to source the roots of the economic stability and performance of Latin America's largest country and to highlight the implications it will have in the near and remote future. Chapter 2 focuses on the Real Plan launched in 1994. A set of reforms which transformed Brazil's economy from a protected economy facing four-digit inflation rates into a stable economy capable of competing with developed economies. It discusses the implementation of the Real Plan, its measures and its positive and negative consequences for the Brazilian economy. Furthermore we are going to deal with the recent past of Brazil's economy since the presidential elections in 2002, when the leader of the workers' party Lula da Silva was elected....
