

Nuclear power plant instrumentation and control (PWR Nuclear Power Plant Operator Training Series teaching the basic theory of personnel)

Filesize: 6.51 MB

Reviews

This publication is fantastic. We have read through and i am certain that i will planning to read yet again yet again down the road. You wont feel monotony at at any time of your respective time (that's what catalogs are for concerning when you request me).

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 320 Publisher: Atomic Energy Pub. Date :2010-12-01 version 1. Liu made. Guo Wenqi edited the nuclear power plant instrumentation and control. focuses on the nuclear power plant instrumentation and control system is based on knowledge. Including nuclear power plant instrumentation and control system components. functions and features. the basics of automatic control theory. nuclear power plant parameters and process variables monitoring instrumentation. control of nuclear power plant reactors. nuclear power plant. the second loop and the steam turbine process parameters control. nuclear power plant protection systems. DCS and its application on the AP1000 nuclear power plants. nuclear power plant control room and information systems. Nuclear power plant instrumentation and control is a pressurized water reactor nuclear power plant operators who one of the basic theory of training materials series. also available in nuclear power engineering and related technical staff and students refer to the relevant professional institutions of higher learning. Contents: Chapter 1 nuclear power plant instrumentation and control system outlined in Chapter 2 the basics of automatic control and regulation Chapter 3 nuclear power plant reactor power monitoring instrumentation Chapter 4 nuclear power plant process parameter monitoring instruments Chapter 5 nuclear power plant reactor control systems Chapter 6 reactor coolant system of control of process parameters in Chapter 7 two-loop control of process parameters in Chapter 8 turbine control and protection of the reactor protection system Chapter 9 Chapter 10 distributed control system outlined in Chapter 11 nuclear power plant control room and information systems index References Four Satisfaction guaranteed, or money back.
